CUSTOM PRODUCTS

resocrete has developed a wide range of formulations (15 mods) from which a wide range of products can be manufactured.

This variability allows **resocrete** to custom manufacture products from Hare Krishna Temple Domes to Wall paneling, custom and branded floor tiles to decorative panels and details.

This allows us to develop goods aimed at satisfying the demand for products which could achieve a high level of detail in the manufacturing process, allowing one to personalize the product through the inclusion of unique design, specialized trade marks, motifs or logos. Because of the nature of the product, this also allows the customer the option to choose a variety of shapes, colours and surface textures.

Designer Fence - La Lucia
