Moulding the Future

PANORAMA COMMODORE

LOW MAINTENANCE MODULAR BALUSTRADE SYSTEM

Our **balucrete** range consists of a spectrum of modular products, which, through unique design and assembly innovations, results in quick installation, reducing erection time on site, and minimizing disruptions to the work place. Made from our MOD 42 formulation, with its superior structural and aesthetic characteristics, and outstanding fire rating, these systems result in low maintenance products, with all the beauty and deco-enhancing characteristic unique to the **resocrete** range of products.

Conforming to all industry norms and requirements for safety and loading, this system consists of 12mm thick tempered glass panes which are supported using 40mm diameter Grade 316 Stainless Steel stand-off fixings. These fixings are held in place using Hilti Epoxy Mortar and all edges of the glass are beveled, and all corners rounded. This system is also offered with an option of an additional 40mm diameter Stainless Steel Handrail, which is fixed to the top of the glass panes.

resocrete's uses are almost endless. Conforming to industry safety standards of lateral loading, height and dimensional tolerances, this low maintenance system offers the very best in design variation and functionality and is the ultimate solution for affordable Balustrading and fencing.

Characteristics:

- . More economical than Steel, Wood or Aluminum
- . Maintenance free
- . Modular system, therefore quick, easy and hassle free installation
- . A wide range of designs to choose from
- . Impervious to water, therefore if you choose to paint it, paint will not bubble or peel.
